FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. 28 Texas Administrative Code §134.203 sets out the fee guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 4 – The procedure code is inconsistent with the modifier used or a required modifier is missing

Issues

1. Did the requestor submit claim according to Division guidelines?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. What is the recommended payment amount for the services in dispute?
4. Is the requestor entitled to reimbursement?

Findings

1. The Division placed a copy of the Medical Fee Dispute Resolution request in the insurance carrier's Austin representative box, which was acknowledged, received on September 29, 2014. Per 28 Texas Administrative Code §133.307(d)(1), "The response will be deemed timely if received by the division via mail service, personal delivery, or facsimile within 14 calendar days after the date the respondent received the copy of the requestor's dispute. If the division does not receive the response information within 14 calendar days of the dispute notification, then the division may base its decision on the available information." The insurance carrier did not submit any response for consideration in this dispute. Accordingly, this decision is based on the information available at the time of review.
2. The carrier denied the disputed services as 4 – "The procedure code is inconsistent with the modifier used or a required modifier is missing." 28 Texas Administrative Code §134.403(d) states in pertinent part, "For coding, billing, reporting, and reimbursement of health care covered in this section, Texas workers' compensation system participants shall apply Medicare payment policies in effect on the date a service is provided with any additions or exceptions specified in this section, including the following paragraphs..." The Medicare Claims Processing Manual, Chapter 5, Section 20 - HCPCS Coding Requirement (Rev. 1850, Issued: 11-13-09, Effective: 01-01-10, Implementation: 01-04-10),(C) states in pertinent part, "When the services described by these G-codes are provided by physical therapists (PTs) or occupational therapists (OTs) treating respiratory conditions, they are considered therapy services and must meet the other conditions for physical and occupational therapy. The PT or OT would use the appropriate HCPCS/CPT code(s) in the 97000 – 97799 series and the corresponding therapy modifier, GP or GO, must be used." Review of the medical claim finds the "GO" modifier was present on the submitted bill therefore the carrier's denial is not supported the services in dispute will be reviewed per applicable rules and fee guidelines.
3. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
4. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code G8987 has a status indicator of E, which denotes non-covered items, codes or services that are not paid by Medicare when submitted on outpatient claims. Reimbursement is not recommended.
 - Procedure code G8987, date of service September 17, 2013, has a status indicator of E, which denotes non-covered items, codes or services that are not paid by Medicare when submitted on outpatient claims. Reimbursement is not recommended.
